

DECAF Dataset

EULA (End User License Agreement)

By signing this document the user, he or she who will make use of the dataset, agrees to the following terms.

1 **Commercial use**

The user may only use the dataset for academic research. The user may not use the database for any commercial purposes. Commercial purposes include, but are not limited to:

- training or proving the efficiency of commercial systems,
- using screenshots of subjects from the database in advertisements,
- selling data from the database,
- creating military applications

2 **Distribution**

The user may not distribute the dataset or portions thereof in any way, with the exception of using small portions of data for the exclusive purpose of clarifying academic publications or presentations. Note that publications will have to comply with the terms stated in article 4.

3 **Access**

The user may only use the dataset after this EULA has been signed and returned to the dataset administrators. The user must print and sign the EULA, then scan it and send it by email with the subject line "**DECAF access request**". Please send the scanned EULA (preferably in pdf format) **using your institutional email** to decaf.mhug@gmail.com along with a Google account id associated with your identity. Upon receipt of the EULA and your Google account information, the data will be shared via the Google drive service with you. The user may not grant anyone access to the database by giving out their access.

4 **Publications**

Publications include not only papers, but also presentations for conferences or educational purposes. All documents and papers that report on research that uses the DECAF dataset should acknowledge this by citing the following paper:

“DECAF: MEG-based Multimodal Database for Decoding Affective Physiological Responses”, M. Khomami Abadi, R. Subramanian, S. M. Kia, P. Avesani, I. Patras, N. Sebe, IEEE Transactions on Affective Computing, DOI 10.1109/TAFFC.2015.2392932, 2015

5 **Changes**

The DECAF dataset administrators reserve the right to change this EULA at any time; users will be informed about changes beforehand and given the choice to opt out of the new EULA. Opting out will render the previous EULA void (and thus the user will lose their right to use the dataset).

6 **Warranty**

The dataset comes without any warranty, the DECAF dataset administrators cannot be held accountable for any damage (physical, financial or otherwise) caused by the use of the database.
